

Sampling with IDEA® – Beyond the Mechanics Hands-On Seminar

Statistical sampling is a fundamental part of audit work. Join us for an informative, one-day seminar that will help you learn how to apply IDEA statistical sampling routines to meet professional auditing standards. The seminar will explore basic statistical concepts through hands-on instruction of Attribute, Monetary Unit and Classical Variables Sampling in IDEA. Through exercises and structured learning, you will develop the necessary skills to plan, select and evaluate a basic statistical sample using IDEA.

Who Should Attend:

Independent auditors, internal auditors, managers, consultants and university/college educators

Level: Basic to Intermediate level of sampling concepts

CPE Credit: 8 Hours

Cost: \$595.00

Register: audimation.com/seminars

Technical Requirements:

Participants may bring their own computers with a current copy of IDEA Version 7.3 or higher with the Stratified Random Sampling update for IDEA Version 7.3.

CPE Credit: This is a group live event from 8:30 a.m. until 4:30 p.m. Each participant will receive 8 CPE credits.

Instructors: A certified IDEA instructor will be present to provide learning and technical assistance as needed.

About the Instructor - Dr. Lyn Graham

Lyn Graham, PhD has more than 35 years of public accounting experience in audit practice and national policy development groups. A former partner and director of Audit Policy for BDO Seidman, LLP, Dr. Graham has also served as a National Accounting and SEC Consulting Partner for Coopers & Lybrand. In this position he was responsible for auditing research and audit sampling techniques training and consulting. Prior to joining BDO Seidman LLP, Dr. Graham was an associate professor of Accounting and Information Systems and a Graduate Faculty Fellow at Rutgers University in Newark, New Jersey. Dr. Graham is the principal author of the 2008 AICPA Audit Guide, *Audit Sampling*.
